

Innovation Changes Everything

QBSI

A Xerox Company

Solutions

QBSI, a Xerox Company, assists customers with a total solution based on a consultative approach to your business. We call it QBSI360™.

We assess all business processes within your organization and create a method of maximizing productivity through improvement. By truly understanding your business and goals, we outline ways of utilizing technology to achieve those goals. To bring value to our customers, we leverage beneficial alliances, industry-leading devices and our professional consulting services to help automate your business processes, thereby saving you time and money.

Our large portfolio of solutions allows us the ability to identify the perfect option to benefit your company. Whether your office is looking for Desktop Document Management or looking at a way to manage mobile devices in an increasingly popular Bring Your Own Device (BYOD) environment, we have what you need.

We have successfully led large corporations, as well as small organizations, – in every industry from healthcare to education and manufacturing – to achieve better financial results, improve operational efficiency and reduce environmental impact.
